RESOLUTION 2014-914

A RESOLUTION OF THE MAYOR AND COMMON COUNCIL OF THE TOWN OF CAMP VERDE, YAVAPAI COUNTY, ARIZONA, FOR CONSIDERATION THE SUBMISSION BY THE MARSHAL'S OFFICE FOR A GOHS GRANT IN ARIZONA'S 2014 FISCAL YEAR HIGHWAY SAFETY PLAN:

WHEREAS, The Governor's Office of Highway Safety (GOHS) is seeking proposals from state and local agencies for projects relating to all aspects of highway safety; and

WHEREAS, the Town of Camp Verde, through the Camp Verde Marshal's Office, is interested in submitting projects to be considered for funding in the form of reimbursable grants from the National Highway Traffic Safety Administration;

NOW, THEREFORE, BE IT RESOLVED, by the Mayor and Common Council of the Town of Camp Verde, Arizona as follows:

1. THAT approval of the submission of projects for consideration in Arizona's 2014 fiscal year Highway Safety Plan is granted.

2. THAT Town Marshal Nancy Gardner is appointed agent for the Town of Camp Verde, to conduct all negotiations and to execute and submit all documents and any other necessary or desirable instruments in connection with such grant.

PASSED AND ADOPTED by the Mayor and Common Council of the Town of Camp Verde, Yavapai County, Arizona on the 5th day of March 2013.

Charles German, Mayor

Date: 3-17-14

Attest:

Deborah Barber, Town Clerk

Approved as to form:

Town Attorney

CAMP VERDE MARSHAL'S OFFICE
646 S. First Street • Camp Verde, AZ 86322

February 21, 2014

Alberto Gutier, Director
Governor's Office of Highway Safety
3030 N. Central Ave. Ste 1550
Phoenix, AZ 85012

Re: FY 2015 Grant Proposal 00020

Dear Director Gutier,

Please accept this attached Grant application for the FY2015 Grant cycle. As the Camp Verde Town Marshal, I endorse the attached Grant and appreciate the opportunity to apply for funding. I hope that our Grant is considered and approved for funding so that we may implement a designated traffic accident crash unit / DUI unit into our department and fulfill the missions of our department and the Arizona Governor's Office of Highway Safety. It is an honor to work with so many entities toward a mutual goal of getting drunk drivers off the street in an attempt to make the street a safer place for the citizens we work to protect. In addition, I am grateful for being considered for funding and additional equipment so that we may implement organized DUI Enforcement details and Multi-Agency task forces in the next year to further assist the Arizona Governor's Office of Highway Safety Mission.

Thank you in advance for your consideration of our Grant application.

Nancy Gardner
Town Marshal

Proposal Summary:
Please include a summary of funding requested by program area (Alcohol, Aggressive Driving, Occupant Protection etc...).
Traffic Safety, DUI Enforcement, and Community Education- The Camp Verde Marshals Office has recently deployed a designated traffic unit to enhance traffic safety and DUI Enforcement. The unit is in need of a fully equipped mobile Crash / Scene Investigation trailer which would give Camp Verde a specialized unit and equipment to deploy for traffic related assignments such as school related presentations, major accident investigations involving fatalities and traffic safety check points/ displays related to DUI Enforcement. We are requesting funding to purchase investigation equipment to stock an enclosed trailer already in possession of the Marshal's Office. Although we are small in size there are locations within the town that traffic can be congested. Having a fully equipped traffic unit to deploy around school areas to conduct traffic monitoring and enforcement would be a great improvement to general traffic and community safety as well as the investigative efforts related to DUI Enforcement and major accident investigation. It is also our intention to deploy Deputies on holidays or other community events where DUI prevention and enforcement can be conducted. This will also be done in conjunction with Multi Agency task forces.The Camp Verde Marshal's Office also deploys our recently obtain DUI Enforcement Trailer on Multi Agency DUI task forces and saturation patrols thoughout the year. We are also requesting specialized equipment for our DUI Trailer which would include one police radio unit for communication purposes for Officers working these types of special assignments, a gas generator and portable lights, and an L.E.D. lighted message board which can display traffic safety and DUI Prevention messages during special assignments. This would be attached to the GOHS DUI Trailer recently obtained from Yavapai County S.O. The Camp Verde Marshal's Office is again asking for additional monies to assist in paying over time for Officers to work special DUI task forces and Saturation patrols, and 3 digital cameras and attachments to equip the Command vehicle, GOHS DUI Trailer and traffic unit. Advanced accident/reconstructionist training is needed for one certified Officer as well as 3 training slots to attend ARAS 360 training which is an advanced accident and crime scene reconstruction computer program which diagrams investigative scenes. The department already has possession of ARAS 360 but it is not being used due to the lack of training.

Background/Problem:
Provide general characteristics of the agency, including information on population, demographics, and a description of streets and highways in the agency's jurisdiction including road mileage.
The Town of Camp Verde is located in Yavapai County, State of Arizona. Camp Verde became incorporated in 1985 and has a population of approx. 11,000. Although Camp Verde is a small community,we still experience the same issues large communities have. We still have people speeding, disobeying traffic control devices, and Driving impaired. We are also strapped for funding which for a long time has limited us on what type of equipment we can deploy. Camp Verde is approx. 49 square miles with Interstate 17 dissecting the center of our jurisdiction. State Route 260 runs through Camp Verde for approx. 20 miles. Camp Verde is a tourist based community and neighbors Sedona. Anyone coming from the south must come through Camp Verde to reach Flagstaff or Sedona. Sedona is a huge tourist community who probably has 10s or thousands of visitors in just a few months. For a small community we have a lot of traffic especially on our highways. The Junction of I-17 and Hwy 260 can be especially congested on weekends with long weekends being even more so. A Tribal Gaming Casino is located within the Town limits of Camp Verde which increases the amount of vehicular and pedestrian traffic into the community.
Along with the influx of Casino traffic, the Town of Camp Verde is also host to the Montezuma Castle National Monument and the Fort Verde State Park. These venues provide an additional approximate one

million visitors per year to the Camp Verde area.

Problem Statement:
What problem is your agency looking to solve with this grant? Provide appropriate data to support funding. With the award of this grant we can increase our traffic contacts, investigative efforts, and prevention details. We also plan to have Deputies visit community groups and schools to educate them on Traffic Safety, DUI's and traffic related problems we see in the community. We also hope to receive feedback as to areas of concern that might be safety concerns that Camp Verde Streets Department or ADOT can address making the roads in Camp Verde safer for everyone. In 2013 Camp Verde suffered its first double fatal vehicle accident in which driving impaired was a contributing factor to the accident and death of a driver and passenger in the same vehicle. Multiple agencies were used during the investigation which demonstrated Camp Verde's needs for the requested investigative equipment and accident reconstruction training for our traffic unit. The grant would have a direct result in improving Camp Verde's investigative ability and preventative measures in the future. The Camp Verde Marshal's current overtime budget only allows for normal overtime occurrences. This past year we have been able to pay for the overtime for several Officer's to work multi Agency task forces and saturation patrols with the additional monies we were awarded by GOHS the past year. This has resulted in numerous citations and several impaired drivers being taken off the streets. Without the money awarded by GOHS these would not have been possible to the extent that they have been. Camp Verde Marshal's Office recently obtained a GOHS DUI Trailer from the Yavapai county Sheriff's Office for use during multi-agency task forces related to DUI detection and prevention. The requested equipment would be used to make the trailer more functional for operational needs during saturation patrols and DUI task force details.

If you have additional information, please upload:

Attempts to Solve Problem

Attempts to Solve Problem:

Identify past attempts to solve the problem identified in your proposal.

The Camp Verde Marshal's Office has been diligently increasing its patrol toward traffic violations, accident investigation and D.U.I.'s. This effort over the past year has included the formation of a motorcycle traffic unit and one officer position. This has been assisted by previously awarded GOHS grants and equipment.These solutions have been effective in detecting violations and removing impaired drivers from our roadways. However the traffic unit is in need of investigative equipment, training, and funding to continue this effort. The Camp Verde Marshal's Office is a small police department with limited funding and is always seeking creative ways to obtain the necessary equipment. Examples of this would include obtaining used GOHS awarded equipment from other agencies in attempts to field a well trained and equipped traffic unit which can focus on traffic related issues for Camp Verde. Other funding has been sought but found to be unavailable. Camp Verde is mostly residential with little commercial business, therefore the tax base is low compared to other towns or cities our size. A small tax base equals low funding for much needed equipment. During the past year The Camp Verde Marshal's Office organized and / or participated in several multi-agency DUI related enforcement details, seat belt and child safety seat programs associated with the local schools and fire department. The awarding of grant monies from GOHS would allow the Marshal's Office to enhance and further this effort.

Title: Project 1

Objectives of the projects in your proposal should follow the SMART method. They should be:

S = Specific
M = Measurable
A = Action-Oriented
R = Realistic
T = Time-Framed

Project Objectives:
The project objectives should be stated in measurable terms directly related to the identified problem, concise and deal with a specific item, realistic, with a reasonable probability of achievement and related to a specific time frame.
After the award is announced we will begin with purchasing and equipping a Crash trailer to be used for traffic enforcement, accident investigation, and DUI task force operations. The current DUI trailer will be equipped with the new police radio, lighting equipment, and message board. Once deployed we will improve our communication capabilities with officers working multi-agency DUI task force as well as increase the visibility of night operation for officers working in and around the DUI Trailer or accident investigation. The message board will be utilized to display preventative messages and public service announcements, visible from the command post to alert the general public of law enforcements efforts toward DUI reduction and enforcement. We would estimate that within the next year, Camp Verde Marshal's will Improve the quality of investigative efforts toward accident and DUI accident related investigations. Our ultimate goal is make our school area streets safer and other roadways as safe as possible. The local press will be informed of the grant awards and will get the information out that we are taking DUI violations, accident investigation and traffic violations serious. We believe with the deployment of a designated Crash Investigation Unit, it shows the community that we are committed to making a safer community for everyone.
With the additional overtime monies we will be able to have at a minumum one or two Officer's participate in the holiday multi-agancy task force details and can add some local saturation patrols. Although it is difficult to project an actual number of DUI arrests from the participation in these details we do know that we will be make additional DUI arrests during these times. In the past multi-agency details that we have participated in we have increased our vehicle contacts, traffic stops, and checks for impaired drivers. If the training requests are granted we will instantly look for specialized classes which deal with accident reconstruction as well as the reconstruction diagram program.

Method of Procedure:
Detail how your agency will solve the problem and meet the objectives you have set.
We believe that by adding a designated Crash trailer, equipment and training, our investigative efforts will increase the quality of traffic / DUI related investigations. This will add to the specialized direction of the current unit which can concentrate on traffic related issues. We also plan to have the Traffic unit officer visit community groups and schools to educate them on the hazards of driving impaired, trends and problems we see in the community. We also hope to receive feedback as to areas of concern that might be safety concerns that Streets or ADOT can address. We would also request this officer become proficient in accident reconstruction. This officer will be able to conduct / lead major accident investigations associated

with DUI/DUI Drug investigations without tying up other resources. With the award of the additional overtime monies we will participate in at least four multi-agency DUI task forces in Yavapai County and will offer for use our Command Vehicle, GOHS DUI Trailer, and Crash unit to be set up in a central location for all participating Agencies to use to process their DUI's and booking forms during these events. Again hopefully utilizing the awarded equipment. We will also do numerous local saturation patrols within our jurisdiction where we will again be looking for impaired drivers, speeders, and taking a zero tolerance to seat belt violations. The awarded equipment and vehicles will also be displayed during such events as Citizen Police Academy, National Night Out Events, and public Safety Open House.

Performance Measures:
Establish measurable goals for your proposal. Example: "To decrease alcohol related fatalities 10% from the 2012 base year average of 250 to 225 by September 30, 2014." "To increase DUI arrests 10% above the 2008 base year average of 5,000 to 5,500 by September 30, 2014."

Your agency should enumerate the objectives of the project in this section. Example: "To participate in 4 DUI Task Forces by September 30, 2014." "To participate in 8 speed enforcement details by September 30, 2014."
With the award of the designated requests in this grant, our Traffic Unit response to major accident investigations and DUI detection will dramatically increase since we currently do not have access to the equipment and training opportunities which will improve the overall quality of our current investigations and response. Our DUI arrests and conviction rates should increase by a minimum of 5% We will also increase our education contacts by attending community groups and schools. We will conduct at least 6 DUI / Traffic Enforcement Details between September 30, 2014 and September 30, 2015, during this same time frame we will participate in at least four multi-agency task forces within Yavapai County where our Command Van, DUI Trailer and Crash Trailer will be utilized by all agencies involved. The Crash Trailer will be located at the Marshal's Office and will be available for any surrounding agency to use to include DPS, the Yavapai County Sheriff's Office, the Yavapai Apache Tribal Police, Clarkdale Police, Jerome Police, and Cottonwood Police.

Traffic Data Summary - Law Enforcement

Please include the following traffic data to support the identified problem in your proposal:

Description	2013	2012	2011
Total Fatal Collisions	1	0	0
Total Injury Collisions	26	30	36
Total Collisions Investigated	136	143	187
Alcohol-Related Fatalities	2	0	0

Professional and Outside Services

Description

ARAS 360 is a accident re-construction program designed to assist in the diagraming and depiction of accident investigations. Currently Camp Verde Marshal's Office has the program but no deputies trained in its operation. ARAS has the capability to train employees in house through virtual programing and would allow 3 deputies to be trained in house without incurring travel costs. The Advanced accident re-construction class is held in Jacksonville Florida by IPTM and is 2 weeks in length to attend. Attempts would be made prior to attending Jacksonville Class, to attend a local AZPOST training which would only incur local per diem costs.

Description	Amount
ARAS 360 Virtual training 3 day software program for 3 deputies	$1,500
Advanced Accident re-construction school for 1 traffic unit officer	$1,000

Total **$2,500**

Travel

Description

The travel would consist of sending one officer to IPTM advanced accident re-construction training in Jacksonville, Florida. The class is conducted over a 2 week time period. Attempts would first be made to have the officer attend a similar class through AZPOST which would only require in state per diem but the selection is a lottery system and the selection would be by luck of the draw. All local attempts to attend a similar class will be made and the Jacksonville training would be as a last resort if no local classes are available.

Description

The within listed items are needed to equip our newly formed DUI / Traffic enforcement unit and will assist in furthering the departments investigative efforts into DUI / serious accident investigation. The additional equipment will be used to outfit a crash investigation trailer as well as our newly acquired DUI Trailer obtained from another police agency under a previous GOHS grant. Both trailers will be deployed during multi-agency task force and special public safety events.

Description	Quantity	Price Per Unit	Tax	Shipping	Amount
Honda Generator to equip accident investigation crash unit providing power during DUI / accident investigation	1	$2,000.00			$2,000
Storage Cabinets to equip accident investigation trailer, used to house investigative equipment and supplies	8	$119.00			$952
Storage cabinets to equip accident investigation trailer, used to house investigative equipment and supplies	2	$80.00			$160
Work table to equip accident investigation trailer, used during field investigations	1	$160.00			$160
Portable light stands to equip traffic accident investigation trailer, used during DUI / accident investigation	2	$60.00			$120
Cannon power shot cameras and attachments to equip DUI trailer, crash vehicle and traffic unit	3	$160.00			$480
Vehicle mounted mobile police radio unit attached to DUI trailer for communication during multi-agency task forces and special events.	1	$940.00			$940
L.E.D. message board attached to DUI trailer for public service announcements during normal and multi-agency traffic events.	1	$2,650.00			$2,650

Keter Wide XL 35 in. x 39 in. Freestanding Plastic Utility Base Cabinet

Model # 217875 Internet # 204734099

Write the First Review

$119.00 / each

PRODUCT SOLD : Online Only
Item cannot be shipped to the following state(s): AK,GU,HI,PR,VI

PRODUCT OVERVIEW

The well-designed XL Base Cabinet by Keter is a handy way to securely store items in space-challenged places. Even if your garage has shelves installed, you may need a more secure place to keep certain tools and other items. The XL Base Cabinet has sturdy doors, and a padlock can even be used to lock them closed. Thanks to its freestanding design, it can be placed just about anywhere. There are two adjustable legs, so you can even position in on uneven ground without worrying about it wobbling around. The XL Base Cabinet is made out of high-quality Keter plastic, which is a polypropylene resin that offers unbeatable durability. What's even better is that it's a breeze to keep clean. All you have to do is wipe it down from time to time. This tough plastic is reinforced by metal, and strong, metal hinges also ensure that the doors continue to function properly for many years to come. This stylish storage cabinet has strong shelves that can be adjusted to suit your needs. All you have to do is adjust the position of the shelves, which is a snap. A single XL Base Cabinet can hold a surprising number of things. By purchasing two or more, you can easily achieve the perfect storage configuration in your garage, shed or any part of your home. The items you store in it will be shielded from dust, debris and the elements. Whether you need a place to store gardening tools or lawn supplies, this cabinet is sure to fill the bill nicely.

- Measures 34.65 in. x 17.72 in. x 36.22 in.
- Doors can be padlocked shut; padlock not included
- Two adjustable legs ensure that the garage cabinet is level at all times
- Fifth leg adds extra support and strength
- Polypropylene resin construction is easy to maintain and won't peel, dent or rust
- Low maintenance, easily wipe clean
- Shelves can be configured to suit a variety of storage needs
- Reinforced with metal for extra strength and durability
- Compact design makes it suitable for use in space-challenged areas

PRODUCT OVERVIEW

This 1,200 Watt tripod halogen worklight is great for home or professional construction use. The tripod extends up to 72 in. tall and detaches easily from the light heads (sled base) for portable lighting solutions. Along with 5-300 Watt bulbs, this fixture includes adjustable heads, an extra bulb storage tube (for unexpected burnouts), cord storage hooks for organized cord placement, and a leg extension knob to extend one of three support legs for use on uneven surfaces. Detach sled base and fold up tripod legs for easy storage. Keep in your garage or closet and you are ready for anything from home remodels to repainting your living room.

- Portable sled base and tripod base included
- Telescopes to 72 in. tall with 1/4 quick turn locking nuts
- Two weatherproof on/off switches for individual light control
- 7 ft. 18/3 grounded striped power cord
- Includes 5-300 Watt halogen bulbs(1 spare) and extra bulb storage tube
- Wire cord storage brackets on leg
- With cord loop on tripod
- Note: Product may vary by store
- Comes with a 5-year limited warranty
- Note: Product may vary by store.
