◆ Telephone: 928.554.0050 ◆ www.campverde.az.gov ◆

The Town of Camp Verde Community Development Department requires a lumen calculation sheet be submitted with all permit applications for new construction; for both residential and commercial development. Commercial projects also require the submittal of cut sheets from the actual lighting to be used. To help you understand the information needed to fill out the form, we have included with your building permit application a graphic illustration of the differences between shielded and unshielded light fixtures as well as a lumens chart of different types of light bulbs. **Note:** You must use the maximum size bulb allowed by the manufacturer of the fixture to calculate your lumens. There is also a limit of 3,000 on the Kelvin output for each light. This information can be found on the fixture itself or its packaging material.

When filling out the lumens calculation sheet please remember to include your existing outdoor lighting fixtures in addition to your proposed lighting fixtures. Total lumens allowed per net acre are 20K Residential and 100K Commercial. Unshielded lights (all types) are limited to a maximum of 5,000 lumens per net acre. Residential parcels and development projects containing one net acre or less are allowed 5,000 lumens of unshielded light (all classes). Maximum Kelvin output is 3000, per light.

For more information on our lighting ordinance please visit our website at <http://www.campverde.az.gov> to view the most current version of the Planning and Zoning Ordinance (Section 405) or call the office of Community Development at (928) 554-0050. Thank you for helping us protect our dark skies and rural lifestyle!

Fully Shielded Examples:

* Note: To be fully shielded these fixtures must be closed on top and mounted such that the bottom opening is horizontal.

Unshielded Examples:

* Note: Even though the lamp in these fixtures is shielded from direct view when viewed from the side or above, reflective surfaces and/or lens covers are directly visible from the side.
