

Printing information for personal laptops

Use the link on the “Library Services” page (www.gciwifi.com) of the Camp Verde Community Library web site to set up your account. Full instructions on how to do this will be found there. A valid email address is required to set up an account.

Once you have an account, you can print from your laptop to the main printer in the library wherever you get a library Wi-Fi connection. Come in to the library during regular hours on the day you send the print job to the printer to retrieve it.

Print jobs that are sent to the printer are not stored indefinitely. Printing charges are .10 cents a page for black and white and .50 cents a page for color.
