

# I-17 Paving Project South of Flagstaff

JUNE 2011

## Project overview

The Arizona Department of Transportation will repave a 10-mile segment of southbound I-17 south of Flagstaff. The project will include repaving the roadway with smooth, quiet rubberized asphalt.

## What to expect:

- ▶ The project began in June and is scheduled for completion by mid August 2011.
- ▶ The speed limit in the project area will be reduced to 55 mph.

There is a possibility that unscheduled closures or restrictions may occur due to weather and other unforeseen circumstances.

## Slow down in the work zone

Drivers are reminded to slow down, proceed through the work zone with caution, and be alert for construction equipment and personnel.

## Stay informed
