EXHIBIT 'B'

LOS or Level of Service, for non-signalized intersections, is determined by the minor or side leg delay. Per the 2010 Highway Capacity Manual, when side leg delay exceeds 25 Sec, the LOS for that approach drops to a LOS "D". Should the delay exceeds 35 seconds, the los would be "E" and below 50 seconds would be a LOS of "F". See 19-1 below.

Exhibit 19-1
Level-of-Service Criteria:
Automobile Mode

Control Delay (s/vehicle)	LOS by Volume-to-Capacity Ratio	
	$v/c \leq 1.0$	$v/c > 1.0$
0-10	A	F
>10-15	B	F
>15-25	C	F
>25-35	D	F
>35-50	E	F
>50	F	F

Note: The LOS criteria apply to each lane on a given approach and to each approach on the minor street. LOS is not calculated for major-street approaches or for the Intersection as a whole.

Background Information: At the August 6, 2014 meeting of the Town Council, the Economic Development Department was tasked with developing an ordinance that would establish a Tree Board, a requirement of the Arbor Day Foundation's Tree City USA designation. During that discussion, it was apparent that the proposed ordinance needed to pertain only to trees on Town property, 2) establish no additional burden of private land owners and 3) add no additional financial burden to the Town. The proposed ordinance is a hybrid version of the Town of Patagonia's ordinance—an ordinance we believe fulfills the desires of council as well as the requirements of the Tree City USA designation.

Recommended Action (Motion): Move to approve Ordinance 2014-A402, an ordinance of the Mayor and Common Council of the Town of Camp Verde, Yavapai County, Arizona adding Article 13-3, Town Trees & Parks to the Town Code, Chapter 13 Parks & Recreation and Library.
