

How to Use City Protect

There are two ways to get to the City Protect website.

#1 From the Town of Camp Verde Home Page, scroll to the bottom and select the Crime Stats box.

#2 From the Marshals Page on the Town website, select the menu item labeled "Crime Statistics".

Once on the Crime Statistics page, click the words "CityProtect.com" and you will be taken to the website.

Crime Statistics

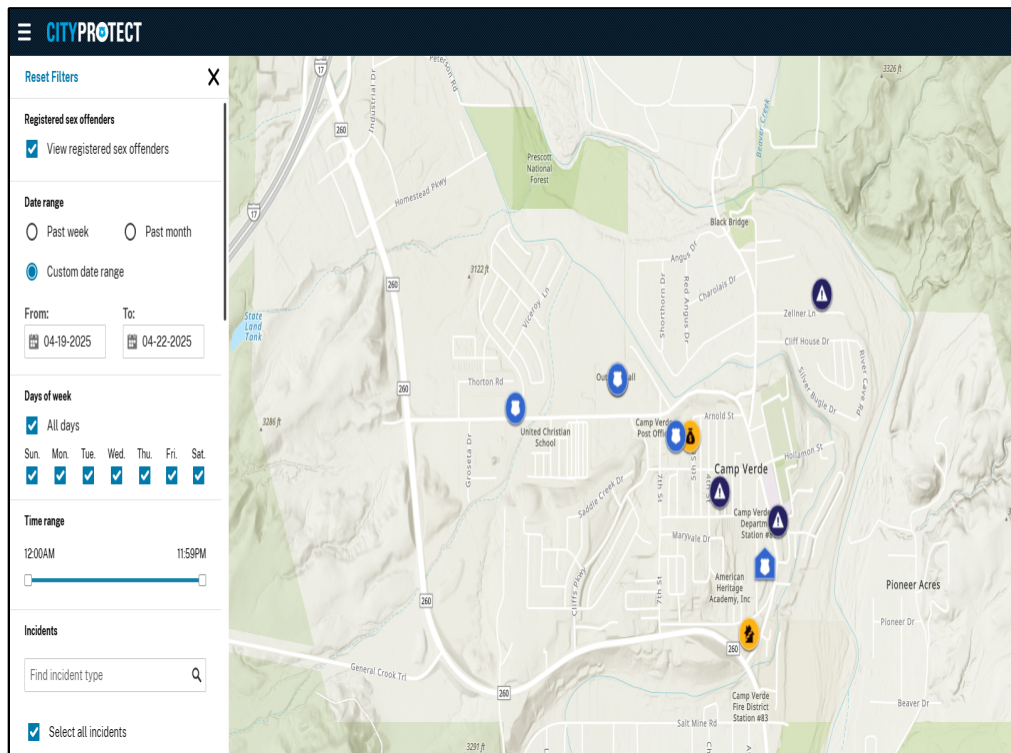

The Town of Camp Verde is now partnering with Motorola to provide its citizens with more current crime statistics and reporting through a program called CityProtect.

Law enforcement provides reports to CityProtect to make information crimes readily available to the community. Those reports are divided into several incident categories that show up as different symbols on the area map. The symbols can then be clicked on to gain more information about a specific incident.

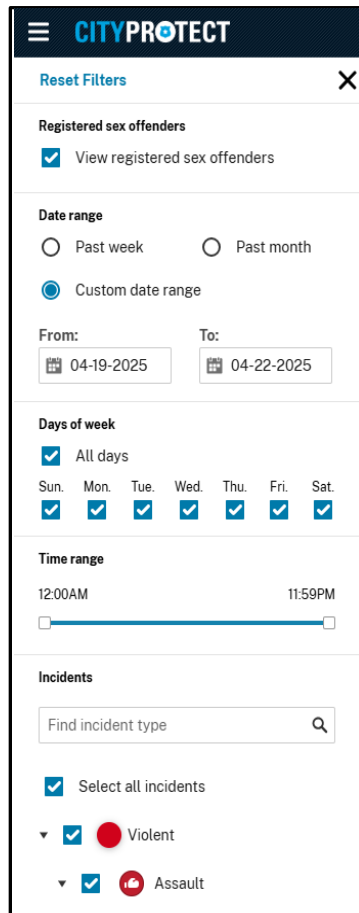

More accurate crime reporting raised the level of community awareness and participation in fighting crime. Users can search specific locations to see what is going on in their neighborhoods and even submit a tip if they suspect suspicious criminal activity. To find out more about what might be going on in your neighborhood visit.

CityProtect.com

The links on the Town of Camp Verde website will take you directly to the map of Camp Verde.

From the Town of Camp Verde Protect Page you can change the filters on the left side of the screen to select the desired date range, specific days of the week, time range, and specific incidents.

Date range / Days of week / Time range

There are many options for different days and times that can be selected for the crime map.

The screenshot shows three filter sections. The 'Date range' section has three radio buttons: 'Past week', 'Past month', and 'Custom date range' (which is selected). Below these are two date pickers labeled 'From:' and 'To:', both showing '04-19-2025' and '04-22-2025' respectively. The 'Days of week' section has a checked 'All days' button and seven checkboxes for the days of the week (Sun. through Sat.), all of which are checked. The 'Time range' section shows a time range from '12:00AM' to '11:59PM' with a slider bar below it.

To change the date you can select “Past week”, which will only display the last week’s data to the day (if you are logging in on a Wednesday, the week will be Wednesday to Wednesday).

You can also select “Past month”. This will give you incidents from the same day of the previous month to present (if you log in on August 24th, the displayed incidents will be from July 24th to August 24th).

If you are looking for specific dates you can select the “Custom date range” and change to “From:” and “To:” dates to match your desired time frame (if you want to see incidents for the year so far you would type “01/01/2020” in the “From:” date and the current day in the “To:” date).

This screenshot shows the 'Custom date range' filter section. The 'Custom date range' radio button is selected. Below it are two date pickers labeled 'From:' and 'To:', both showing '04-19-2025' and '04-22-2025' respectively.

If you are interested in only seeing incidents that happened on a specific day of the week, you can simply check the days you are interested in.

This screenshot shows the 'Days of week' filter section. The 'All days' button is selected. Below it are seven checkboxes for the days of the week (Sun. through Sat.). The checkboxes for Sun., Thu., and Fri. are checked, while Mon., Tue., Wed., and Sat. are unchecked.

When you want to see all days, click the “All days” button and it will automatically check every day of the week.

You can also filter for time of day by clicking the box at either end of the “Time Range” and slide it to the desired time. For example, if you only want to see what incidents happened between 5:00AM and 6:00PM you can slide the left box to 5:00AM and slide the right box to 6:00PM.

Time range

5:00AM

6:00PM

Incidents

There are several filters for incidents that are sorted into 4 main categories.

- Violent
- Property & Theft
- Disorder/Disturbance
- 911 or Other

If you want to see EVERYTHING that happened in Town of Camp Verde within your specified time/date range you can just click “Select all incidents”.

Incidents

[Incident descriptions](#)

☒ Select all incidents

▶ Violent

▶ Property & Theft

▶ Disorder/Disturbance

▶ 911 or Other

If you want to see only a specific type of incident, you would click the triangle next to the category you are looking at and select the incident you are looking for. For example, if you want to see how many vehicles were broken into, you would click Property & Theft and select “Theft from Vehicle”.

▼

Property & Theft

▼

☐ Property Crime

☐ Breaking & Entering

☐ Property Crime Commercial

☐ Property Crime Residential

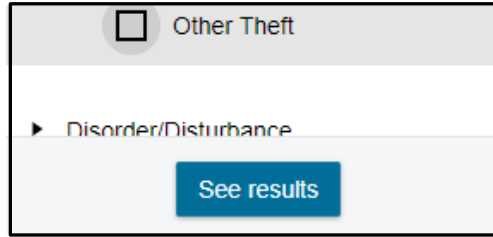

☐ Other Property Crime

▼

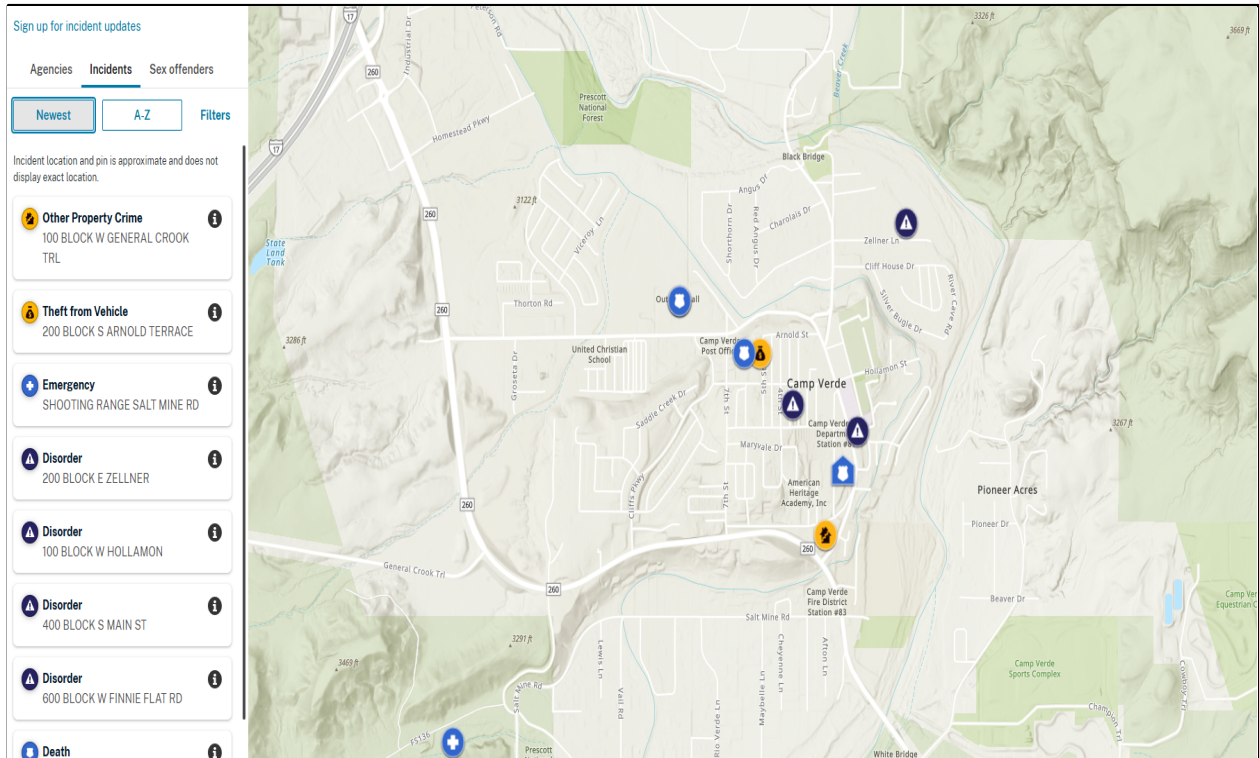

☒ Theft

☒ Theft from Vehicle

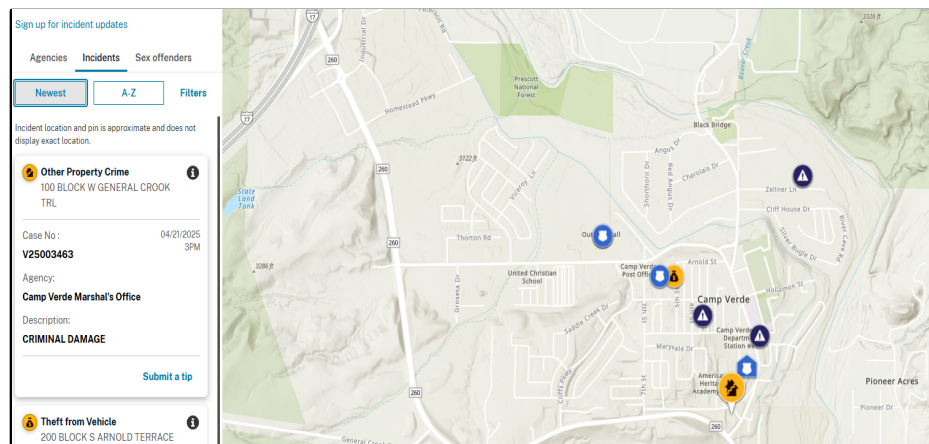

When all of your desired filters have been selected, hit the “See results” button at the bottom of the filters menu.

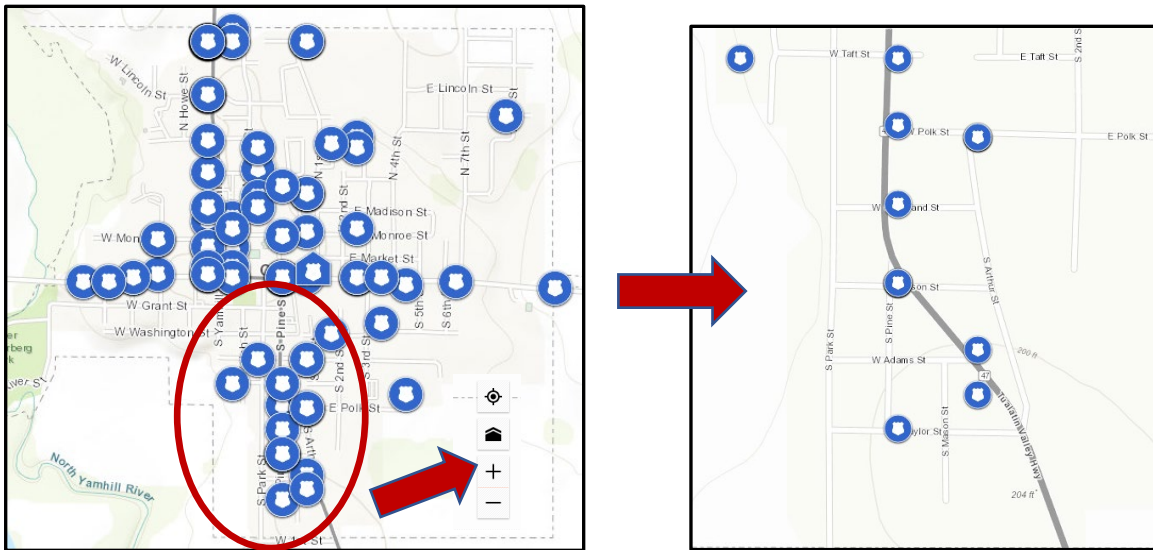

This will display different icons representing different incidents on the area map to the right on the screen. And a list of all incidents and their descriptions on to the left of the screen.

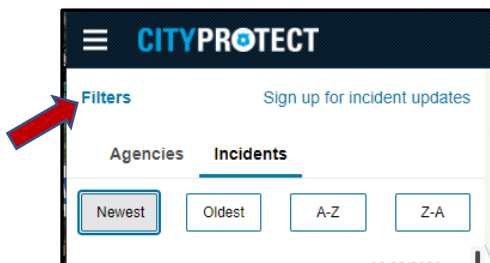

Clicking on one of the icons on the map will highlight the incident information on the left and bring it to the top of the list.

If there are multiple icons in one place making it hard to spot what happened where, you can zoom in on that area using the + and – buttons in the bottom right of the screen and then click and drag the map to your desired area.

If you would like to change the filters at any time. Click the Filters button in the top left corner and then hit Reset Filters.

Signing up for Incident Updates

From the Incidents tab, you can also sign up for incident updates.

This will send updates to the entered email address at the selected frequency (Daily, Weekly, or Monthly).

Get email updates for new incidents reported within your current map view.
